

HMN Monitoring Summary

Session 19: 5 – 11 October 2017

Session 20: 19 – 25 October 2017

Regional Summaries

ARIZONA

49 hummingbirds of 6 species observed or captured at Harshaw Creek during session 19 and 10 Anna's hummingbirds during session 20. A great end to the year! Thanks, Lee, Susan, and volunteers!

NEVADA

A wonderful last session with quite a few birds for Jeanne, Kelsey, and the volunteers at the Red Rock site. Thank you for all of your hard work and dedication which made this site possible!

UTAH

Tonaquint's last session is an exciting one with Anna's and Black-chinned captured and Costa's observed. This site is a great addition to the Network, and we look forward to seeing what next year brings. Thanks to Terry, Lisa, Shayla, and their volunteers for a wonderful year!

HMN Monitoring Summary

Session 19: 5 – 11 October 2017

Session 20: 19 – 25 October 2017

ARIZONA

Date: 10/6/2017

Location: HARSHAW CREEK, PATAGONIA MOUNTAINS

Banding Team: LEE ROGERS, SUSAN WETHINGTON, AND LAURA DAVIS

Assistants: Gary Romig and Laura Clawson

Time: 6:30 – 11:30 AM

Number of Visitors: 0

Session Remarks: Most migrants from the north have passed through. Just a few stragglers left. Now, the Anna's have become the most abundant species here. Often, there's a large Anna's migration in October here. Our questions now is this the beginning or is it a relatively small migration. These next two weeks will tell. Today, we had the help of long-term Network monitoring volunteers: Gary Romig and the two Laura's from the Fort Huachuca site. Keep fingers crossed. Fort Huachuca might become a site again. It was a beautiful fall day!

Date: 10/20/2017

Location: HARSHAW CREEK, PATAGONIA MOUNTAINS

Banding Team: LEE ROGERS, SUSAN WETHINGTON, AND LAURA DAVIS

Assistants: Gary Romig and Karina Hilliard

Time: 6:45 – 9:00 AM

Number of Visitors: 0

Session Remarks: This year, Anna's migration has been relatively low. The number of birds at this site has continued to drop since the last session. So, we expected a low number of birds. What we didn't expect was the increase of bees at the site. They are swarming the feeders and was not successful at deterring them. So, on this last session, we end early. It's been a great season and we appreciate the help of long-time volunteers Gary Romig and Karina Hilliard. See you next year.

NEVADA

Date: 10/7/2017

Location: RED ROCK CANYON NATIONAL CONSERVATION AREA

Banding Team: JEANNE TINSMAN

Assistants: Kelsey Retich, Marcia Hendersen, David Bellamy, Robert Fisher, Charles McCullough

Time: 6:40 – 11:40 AM

Number of Visitors: 0

Session Remarks: Great end of the season. Way more birds than we typically see in October.

HMN Monitoring Summary

Session 19: 5 – 11 October 2017

Session 20: 19 – 25 October 2017

UTAH

Date: 10/5/2017

Location: TONAQUINT PARK, ST. GEORGE

Banding Team: SHAYLA BASILE AND TERRY TOLBERT

Assistants: Kameron Curtis and Kylea Christensen

Time: 7:13 AM – 12:13 PM

Number of Visitors: 10

Session Remarks: This was an exciting session because we were able to catch and band Anna's hummingbirds. A few adult male, female, and juvenile male Anna's made their way to our feeders and it was wonderful to get another species added to this site.
